

Class of Vehicles that will require an OAP #1 on July 1st, 2017:

Mobile cranes

Not built on a truck chassis, but not off-road mobile cranes (i.e. vehicle is capable of travelling at speeds greater than 60 km/h).

Excavators

Not built on a truck chassis, but not off-road excavators (i.e. vehicle is capable of travelling at speeds greater than 60 km/h).

Street sweepers

Not built on a truck chassis, but not low-speed street sweepers (i.e. vehicle is capable of travelling at speeds greater than 60 km/h).

Hydrovacs

In addition, the following classes of vehicles will also be commercial motor vehicles after July 1st, 2017:

- Vehicles built on a truck chassis.
- Vehicles that comply with or are intended to comply with Canadian federal safety manufacturing standards for highway vehicles, or comparable standards from another jurisdiction.
