

Manufacturers' Choice

More than just a policy; a complete solution

Printing

We've made it our business to become the partner of choice for commercial printers. Our comprehensive Manufacturers' Choice policy offers a complete insurance package including property, liability and auto insurance.

Innovations in industries such as publishing, advertising, packaging and labeling have caused the needs and demands of the printing industry to change. This has been further amplified by the advances of computer graphics and computerized printing.

We understand these challenges, and have developed an insurance solution that caters to the evolving needs of the Canadian printing industry today and into the future.

Our value-added services include the assessment of, and consultation on, the inherent risks associated with equipment and materials used in printing operations.* Our services assist in minimizing business interruption and property damage through the assessment of protection systems and hazardous materials, and best practice risk control measures.*

Some of our available coverages include:

- Printers' Errors and Omissions (E & O)
- Equipment Breakdown, endorsed with Production Machinery
- Cyber Risk

Why choose Northbridge Insurance?

With a long and trusted history of serving Canadian manufacturing companies like yours, we understand the risks you face and can provide the tailor-made solutions you need. Northbridge Insurance offers industry-leading regional underwriting and claims services, value-added risk services and even cross-border capabilities to fully and seamlessly support your business operations in Canada and the U.S.*

Key coverage

Why you need it

How the coverage may help you

Printers' Errors and Omissions (E & O)

Protects you against financial losses arising from your negligence in design or for mistakes made in the material printed.

A printing company makes a design error in a print advertisement for a large billboard, which causes financial loss to its client, an advertising agency. The agency has paid for advertising space on the billboard, but cannot put the printed material up on time. Moreover, the printing company needs additional time to recreate the design and reprint the advertisement to its correct specifications. The agency still has to pay for the lease on the empty billboard.

In such an instance, the printing company's Commercial General Liability (CGL) policy does not respond since there is no bodily injury or property damage.

A Printers' E & O policy can fill in these coverage gaps.

Equipment Breakdown, endorsed with Production Machinery

Endorsed with Production Machinery, this can provide coverage against accidental damage to your equipment and the resultant loss of income from the unexpected breakdown of a printer's valuable machinery.

A sudden power surge leads to a mechanical failure of the electrical transformer in a printing press. As a result, printing operations shut down for days.

Your Property policy will provide coverage against loss or damage due to events such as fire and theft, but not for accidental equipment breakdown.

This provides coverage for costly repairs, replacement, and lost business income in the event of an unexpected breakdown of your production machinery, such as presses, rotogravures or laminating machines.

Cyber Risk

Designed to protect against losses resulting from network security breaches, privacy breaches and internet media liability.

We offer pre-packaged "bundles" of coverage, as well as custom options for risks with specialized exposures or requiring higher limits.

Optional coverages for both first and third party losses resulting from these exposures are available. Policyholders also have free access to consultation from a leading data risk management services provider.*

A printing company unknowingly posts trademarked images on its website. The owner of the images becomes aware of the trademark infringement and brings a legal action against the printing company.

Our Cyber Risk policy provides coverage for intellectual property infringement on the business's website.
